Kyle,

(b) (6)

I think it will be good to have Gene and Bruce present. Josh Seeds will be joining us as well.

I suspect policies will be discussed but I am hoping we focus on the technical issues that are the underpinnings for the policy components.

The meeting is going to be at DEQ's HQ in downtown Portland. It is by Pioneer Square. The meeting will be in the 11th floor conference. You will need to go to the 10th floor for a pass.

As we discussed, I will put together a rough agenda to guide our discussion and will send it out to folks with specific logistics.

Subject: Riparian Rule Analysis Meeting

Hi Alan,

Here are agenda items that we should cover when we meet next week on the 17th.

Stream Extent
Georegions
Timelines and Board Decisions

Also, the Governor's advisors will not be at the meeting but they have asked if representative managers from DEQ and ODFW could be at the meeting. We will be inviting Gene Foster and Bruce McIntosh to attend. It also seems that this will be more of a policy meeting and will not be getting into the weeds with technical discussions.

I cant seem to recall the timing and location of the meeting, could you send that to me (b) (6)

(b) (6)

Thanks,

K
